[Chart] to view chart

- 3. Specify a price for the Stop Loss and/or Take Profit order. Tap [Modify] to submit the modified order.
- 4. Tap [Done] to close the confirmation window.

c. Auto-Closeout

The Auto-Closeout is a built-in feature on our MT4 system that helps users to minimise trading risk exposure. An Auto-Closeout is triggered when the account net equity falls below the pre-set percentage of the required margin. When this happens, all open positions in the account will be automatically closed by the system.

Please be noted that in a fast moving market or market gaps, your position may be closed at a less favourable price.

Risk of Trading in Over-The-Counter Gold Bullion/Silver Contracts

Over-the-counter Gold Bullion/Silver ("Bullion") trading carries a high degree of risk, and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Bullion is not regulated by the Securities and Futures Commission ("SFC") and therefore trading Bullion will not be subject to rules or regulations promulgated by the SFC which include but is not limited to Client Money rules. Before deciding to trade Bullion you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment or even more in extreme circumstances (such as Gapping underlying markets) and therefore, you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with trading Bullion, and seek advice from an independent financial advisor if you require.

Risk of Electronic Trading

Trading on an electronic trading system may differ from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

For more details, please visit our corporate website.
